

First Announcement:

Electron Induced Processes At the Molecular Level

EIPAM07

25th-29th May 2007

Hótel Örk Hveragerði, Iceland

<http://theochem.org/eipam07/index.html>

We cordially invite you to attend the 2007 meeting on Electron Induced Processes at the Molecular Level; EIPAM 2007. The meeting will be held in Hveragerði, Iceland from the 25th of May to the 29th of May 2007.

EIPAM is a five year programme to study how electrons may be used to manipulate molecules and initiate chemistry. The programme brings together both experimentalists and theorists from a wide range of disciplines including physics, chemistry, engineering and biology. For further information on the ESF Programme including past conferences, opportunities for exchange visits and Fellowship opportunities see:

[EIPAM](#)

About 35 invited speakers will present overview and recent results on electron induced processes; in the Gas Phase (beam, swarm and basic properties), in the Condensed phase (clusters and other condensates) and at Surface (linking to surfaces, electrons from surfaces STM etc)

The organizing Body is the ESF Programme Electron Induced Processing at the Molecular Level

Local organizing committee:

Oddur Ingólfsson (Chair), <odduring@hi.is>

Beverly Harker (Secretary and Treasurer) <B.J.Harker@open.ac.uk>

Helga Dögg Flosadóttir (Local arrangements) <hdf@hi.is>

Michal Stano (Local arrangements) <michal@hi.is>

Ragnar Björnsson (Webmaster) <ragnarbj@hi.is>

Programme:

The conference will include invited lectures, short visit reports and poster presentations. Every session will be opened with a 45 minutes lecture giving an overview of the topic, will continue with a number of 30 min presentations on recent work and conclude with 15 min short visit reports.

The time allocated for invited presentations includes 5 minutes the speakers are asked to allow for discussion. The short visit reports are allocated a total time of 15 minutes from which the presenter is asked to allow 3 minutes for discussion.. The poster sessions are planned for late afternoons.

Overhead- and beam-projectors will be provided in all oral sessions. Presenters requiring special equipment such as slide projectors (35mm) and VCR's should indicate these requirements on the abstract form.

A preliminary list of Speakers will be announced early January 2007.

Accommodation:

The conference lectures, poster sessions, meals and accommodation are all under one roof in the conference resort Hótel örk - Breidumork 1c , Hveragerði

Hótel Örk is a country hotel located in Hveragerdi, a small village often called Iceland's "health capital". It is only 45 km from Reykjavik. A first class hotel with all the comforts and services you would expect to find in a city, but conveniently situated amidst Iceland's exciting natural environment. Hotel Örk has seven excellent conference and function rooms of different sizes, accommodating up to 500 people. All are fitted with state-of-the-art equipment for a successful meeting or function. Hotel Örk offers a paradise in this island in the High North. Eighty-five spacious and well-furnished twin rooms offer guests private bath, mini-bar, telephone and television. The bathrooms are roomy and are all equipped with both shower and bathtub.

Conference Fee

The Conference Fee is estimated to be about 450 euro for double room occupation. The fee includes all meals (except Conference dinner- see below) and a guided tour of Gullfoss Geysir and Pingvellir.

Invited speakers will be fully reimbursed for the conference fee and dinner and partly for their travel expenses. Regular participants that are part of the EIPAM program can apply for partial reimbursement.

Site for registration is open at: <http://theochem.org/eipam07/registration.html>

With Best Regards

Dr. Oddur Ingolfsson
Associate professor
